OPERATIONS & PROCESS EXCELLENCE | LOGISTICS & SUPPLY CHAIN | PMP®

PROFESSIONAL SUMMARY

PMP®-certified Operations and Supply Chain professional with 10 years of hands-on experience across logistics, high-volume order fulfillment, last-mile operations and process transformation. Proven track record of standardizing workflows, building SOPs and operational dashboards, improving SLA/TAT performance, automating manual processes and leading cross-functional teams. Experienced in scaling new operating models, OMS/WMS workflows and logistics processes across multi-city networks, with measurable improvements in throughput, cost, quality and delivery performance.

PROFESSIONAL EXPERIENCE

CHANGE JAR TECHNOLOGIES

Manager – CX Operations | Mar 2024 – Aug 30, 2025

- Improved CSAT from 65% to 85%+ within six months through continuous coaching, feedback loops and root-cause analysis of service gaps.
- Reduced ticket First Response Time from 4 hours to under 30 minutes through auto-assignment workflows and smart source allocation, strengthening SLA compliance.
- Tracked operational KPIs and business performance metrics to identify bottlenecks, streamline reporting and improve turnaround times.
- Drove structured process improvements and training initiatives to improve productivity, service quality and operational consistency.

BYJU'S

Manager – Operations & Strategy / Assistant Manager – Operations | Mar 2020 – Mar 2024

- Led high-volume order dispatch operations, managing teams of 80+ associates, 6 team leads and 2 assistant managers across daily revenue-order workflows.
- Introduced reporting automation that improved daily order-processing efficiency by approximately 10%, reducing manual reporting effort and improving visibility.
- Led creation and integration of OMS and WMS workflows, transitioning key processes from manual to technology-enabled operations.
- Designed automated order-assignment logic based on product characteristics and business rules, reducing TAT by approximately 10%.
- Developed a logistics dashboard providing real-time visibility into order dispatch and TAT performance, enabling proactive intervention on SLA breaches.
- Managed daily dispatch operations averaging approximately 1,000 orders; process and incentive optimization increased individual productivity from 60 to 120 orders/day.
- Improved same-day fulfillment from 70% to 85% and successful logistics-partner connections from 70% to 95% through workflow and semi-automation improvements.
- Established a logistics testing team and implemented QMS through SOP documentation, process standardization and deployment controls, contributing to ISO certification.
- Led rollout of Last Mile Fulfillment Centers across 4 zones and 12 cities, reducing cost/order by 10% and zonal delivery TAT from 7 days to 3 days.
- Designed a logistics framework for post-dated cheque pickups between fulfillment centers and Head Office, overseeing 2,800+ pickups nationwide.

DELHIVERY PVT. LTD.

Project & Operations Manager – Alternative Delivery Model | Aug 2015 – Feb 2020

- Led rollout and scaling of an Alternative Delivery Model across the South region, reducing last-mile delivery costs by approximately 15%.
- Managed regional logistics operations with a 16-member team and expanded the model to approximately 40% of e-commerce consignments in the South.
- Delivered approximately 15–20% commercial savings versus conventional last-mile models and managed partnerships with 10+ logistics providers/partners.
- Built and launched a Hyperlocal Delivery Model in Bengaluru to support food-delivery requirements for multiple businesses.
- Supported the early Bengaluru rollout of Delhivery's Mailbox initiative and helped scale the operating model across South India.
- Scaled the C2C model to 30 franchises across South India, increasing consignment generation by approximately 10% through standardized processes and partner coordination.

PROFESSIONAL DEVELOPMENT

Independent Professional Development | Sep 2025 – Present

- Pursued structured development in project management, operations excellence, SAP/S/4HANA and AI-enabled business applications.
- Earned the PMP® certification and strengthened capabilities in process improvement, project execution and operational performance management.
- Continued practical learning focused on workflow improvement, automation, operational reporting and digital transformation.
