OPERATIONS & PROJECT MANAGEMENT | PROCESS TRANSFORMATION | LOGISTICS & SUPPLY CHAIN | PMP®

PROFESSIONAL SUMMARY

PMP®-certified Operations and Project Management professional with 10 years of hands-on experience across logistics, high-volume order fulfillment, last-mile operations and process transformation. Proven track record of standardizing workflows, building SOPs and operational dashboards, improving SLA/TAT performance, automating manual processes and leading cross-functional teams. Experienced in scaling new operating models, OMS/WMS workflows and logistics processes across multi-city networks, with measurable improvements in throughput, cost, quality, customer experience and delivery performance.

CORE COMPETENCIES

Operations Management • Project Rollout & Implementation • Process Improvement • SOP Development • SLA & TAT Management • KPI / Milestone Tracking • KPI Dashboards • Exception Management • Continuous Improvement • Logistics & Supply Chain • Order Fulfillment • OMS/WMS • Requirements & Workflow Design • Testing & Deployment Readiness • Process Automation • Quality Management • Root-Cause Analysis • Risk & Issue Identification • Change & Adoption Support • Stakeholder Communication • Cross-functional Coordination • Team Leadership • Excel

PROFESSIONAL EXPERIENCE

CHANGE JAR TECHNOLOGIES | Manager – CX Operations | Mar 2024 – Aug 30, 2025

- Improved CSAT from 65% to 85%+ within six months through continuous coaching, feedback loops and root-cause analysis of service gaps.
- Reduced ticket First Response Time from 4 hours to under 30 minutes by implementing auto-assignment workflows and smart source allocation, strengthening SLA compliance.
- Tracked operational KPIs and business performance metrics to identify bottlenecks, streamline reporting and improve turnaround times across customer and operations workflows.
- Drove structured process improvements and training initiatives to improve team productivity, service quality and operational consistency.
- Managed operational improvement initiatives involving KPI monitoring, root-cause analysis, workflow optimization and stakeholder coordination.

BYJU'S | Manager – Operations & Strategy / Assistant Manager – Operations | Mar 2020 – Mar 2024

- Led high-volume order dispatch operations, managing teams of 80+ associates, 6 team leads and 2 assistant managers across daily revenue-order workflows.
- Introduced reporting automation that improved daily order-processing efficiency by approximately 10%, reducing manual reporting effort and improving visibility.
- Led creation and integration of Order Management System (OMS) and Warehouse Management System (WMS) workflows, transitioning key processes from manual to technology-enabled operations.
- Translated business requirements into automated order-allocation logic based on product characteristics and business rules, reducing TAT by approximately 10%.
- Developed logistics dashboards for real-time monitoring of dispatch and TAT performance, enabling proactive intervention on potential SLA breaches.
- Managed daily dispatch operations averaging approximately 1,000 orders; process and incentive optimization increased individual productivity from 60 to 120 orders/day.
- Implemented workflow and semi-automation improvements that increased same-day fulfillment from 70% to 85% and successful logistics-partner connections from 70% to 95%.
- Established a logistics testing team and implemented a Quality Management System through SOP documentation, process standardization and deployment controls, contributing to ISO certification and a 2% reduction in user errors.
- Led rollout of Last Mile Fulfillment Centers across 4 zones and 12 cities, bringing approximately 30% of order dispatches under the model, reducing cost/order by 10% and zonal delivery TAT from 7 days to 3 days.
- Designed and executed a logistics framework for post-dated cheque pickups between fulfillment centers and Head Office, overseeing 2,800+ pickups nationwide.

DELHIVERY PVT. LTD. | Project & Operations Manager – Alternative Delivery Model | Aug 2015 – Feb 2020

- Led rollout and scaling of an Alternative Delivery Model across South India, reducing last-mile delivery costs by approximately 15%.
- Managed regional logistics operations with a 16-member team and expanded the model to approximately 40% of South-region e-commerce consignments.
- Delivered approximately 15–20% commercial savings versus conventional last-mile models and managed partnerships with 10+ logistics providers/partners.
- Built and launched a Hyperlocal Delivery Model in Bengaluru to support food-delivery requirements for multiple businesses.
- Supported the early Bengaluru rollout of Delhivery's Mailbox initiative and helped scale the operating model across South India.
- Scaled the C2C model to 30 franchises across South India, increasing consignment generation by approximately 10% through standardized processes and partner coordination.

SELECTED PROJECT MANAGEMENT EXPERIENCE

Last Mile Fulfillment Centers – BYJU'S: Led establishment and expansion across 4 zones and 12 cities; coordinated rollout and process standardization; brought ~30% of dispatches under the model; reduced cost/order 10% and TAT 7→3 days.

OMS / WMS Process Implementation – BYJU'S: Led workflow creation and implementation; translated requirements into automated allocation logic; reduced TAT ~10% and moved key processes from manual to technology-enabled operations.

Logistics Testing & QMS – BYJU'S: Established testing team; supported launches through structured testing, SOPs and deployment controls; contributed to ISO certification and 2% reduction in user errors.

Post-Dated Cheque Pickup Framework – BYJU'S: Designed and executed a logistics framework connecting fulfillment centers with Head Office, overseeing 2,800+ pickups nationwide.

Alternative Delivery Model – Delhivery: Led regional rollout and scaling across South India; managed teams and 10+ partners; achieved ~15% cost reduction and ~15–20% commercial savings versus conventional models.

PROFESSIONAL DEVELOPMENT

Independent Professional Development | Operations / Project Management / Digital Transformation | Sep 2025 – Present

- Pursued structured development in project management, operations excellence, SAP/S/4HANA and AI-enabled business applications.
- Earned PMP® certification and strengthened capabilities in process improvement, project execution and operational performance management.
- Continued independent learning and practical exercises focused on workflow improvement, automation, operational reporting and digital transformation.

CERTIFICATIONS & CREDENTIALS

- PMP® – Project Management Professional, Project Management Institute (PMI)
- Excel Mastery Certification – Microsoft Excel
- Google Project Management Certificate

[PMP® verification: Credly public badge](#)

AWARDS & RECOGNITION

- Supply Chain Department – Phoenix Award for innovative green packaging initiatives in order-dispatch operations.
- Mega Mind Award – Recognized among the top five recipients out of 10,000+ employees for innovation and problem-solving.
- Best Fitbots Champion – Recognized twice for leadership in OKR execution and improving completion rates.

TOOLS & ENVIRONMENT

Excel • Jira • Asana • Notion • Confluence • Fitbots • OMS/WMS • SAP/S/4HANA

EDUCATION

B.Tech – Metallurgical & Materials Engineering, National Institute of Technology Karnataka (NITK), Surathkal | 2011–2015
